

Professional Experience Summary

Karim Vellani is President of Threat Analysis Group, LLC, an independent security consulting firm. Board Certified in Security Management (CPP) and as a Security Consultant (CSC), he has over 30 years of experience in security management. He holds a bachelor's degree in Criminal Justice and a master's degree in Criminal Justice Management. He is the author of *Applied Crime Analysis*, *Strategic Security Management*, and *Unraveled: An Evidence-Based Approach to Understanding and Preventing Crime*, and has contributed to many other security publications and journals. Karim collaborates on research initiatives focused on preventing violent crime, workplace violence, and sex trafficking. As an Adjunct Professor at the University of Houston–Downtown, he taught graduate-level courses in Security Management and Risk Analysis. He has trained police and security officers in firearms use and the application of force and frequently serves as an instructor for professional security organizations.

As an independent security consultant, Karim has advised Fortune 500 companies and government agencies on security risk management and force protection. He regularly consults for government, commercial, and residential sites across the country, with a portfolio including data centers, healthcare facilities, houses of worship, manufacturing plants, financial institutions, retail stores, shopping centers and malls, hotels and motels, office buildings, and residential housing. For 11 years, Karim was responsible for managing the quality control/assurance function for the U.S. Department of Homeland Security's protection force at federal buildings in 23 states.

Karim specializes in crime analysis and security risk assessment. He developed a crime analysis methodology and software application based on the FBI's Uniform Crime Reporting system, enabling users to identify threats, select effective countermeasures, and mitigate risks. First introduced in *Applied Crime Analysis* and expanded in *Unraveled*, this methodology has been applied in threat assessments for thousands of facilities. He also created the Security Risk Assessment Methodology for Healthcare Facilities, published by the International Association for Healthcare Security & Safety (IAHSS) in 2009. In 2023, Karim authored the IAHSS Human Trafficking Victim Identification and Response guideline and served on the ASIS International Technical Committee for the Risk Assessment Standard.

Karim is an active member of several professional organizations, including the International Association of Professional Security Consultants (IAPSC), ASIS International, the American Society of Criminology (ASC), the American Society of Evidence-Based Policing (ASEBP), the International Association of Crime Analysts (IACA), the International Association of Chiefs of Police (IACP), and the International Association for Healthcare Security & Safety (IAHSS). He previously served as President of the IAPSC and as Chair of both the IAHSS Foundation's Evidence-Based Research Committee and the IAPSC's Evidence-Based Security Practices Committee. He currently serves as a member of the IAPSC Forensic Committee. In 2025, Karim was honored with the Charles A. Sennewald Distinguished Service Accolade by the IAPSC in recognition of his contributions to the security consulting profession.

Current Employment

Threat Analysis Group, LLC

President & Independent Security Consultant

- Security Metrics & ROI: Conduct ROI analyses for crime prevention investments; perform crime analysis and benchmarking to support data-driven decision-making
- Risk Management: Lead threat and vulnerability assessments; develop quantitative risk models to measure exposure and prioritize mitigation strategies
- Operational Optimization: Develop and refine security policies, staffing models, and procedures; advise on force allocation, procurement, and vendor selection
- Technology Advisory: Provide vendor-independent consultation on access control, intrusion detection, video management, and communications systems
- Research & Innovation: Conduct evidence-based research on crime prevention, with emphasis on threat assessment, violent crime, sex trafficking, and workplace violence

Past Employment

University of Houston – Downtown
